Citizens Budget

Budget

Budget is technically a document that includes the government's expenditure and revenue proposals, reflecting its policy priorities and fiscal targets. However, the budget document is the culmination of an on-going budget decision-making process, and of a country's system for managing and assessing its spending and tax policies.

Government Budget

A government budget is a document presenting the estimated income from taxes and other sources and the estimated spending of government over a financial year. In Pakistan the financial year spans from July to June.

Government budgets are usually planned and implemented at three levels: Federal, Provincial and District levels.

Citizens Budget

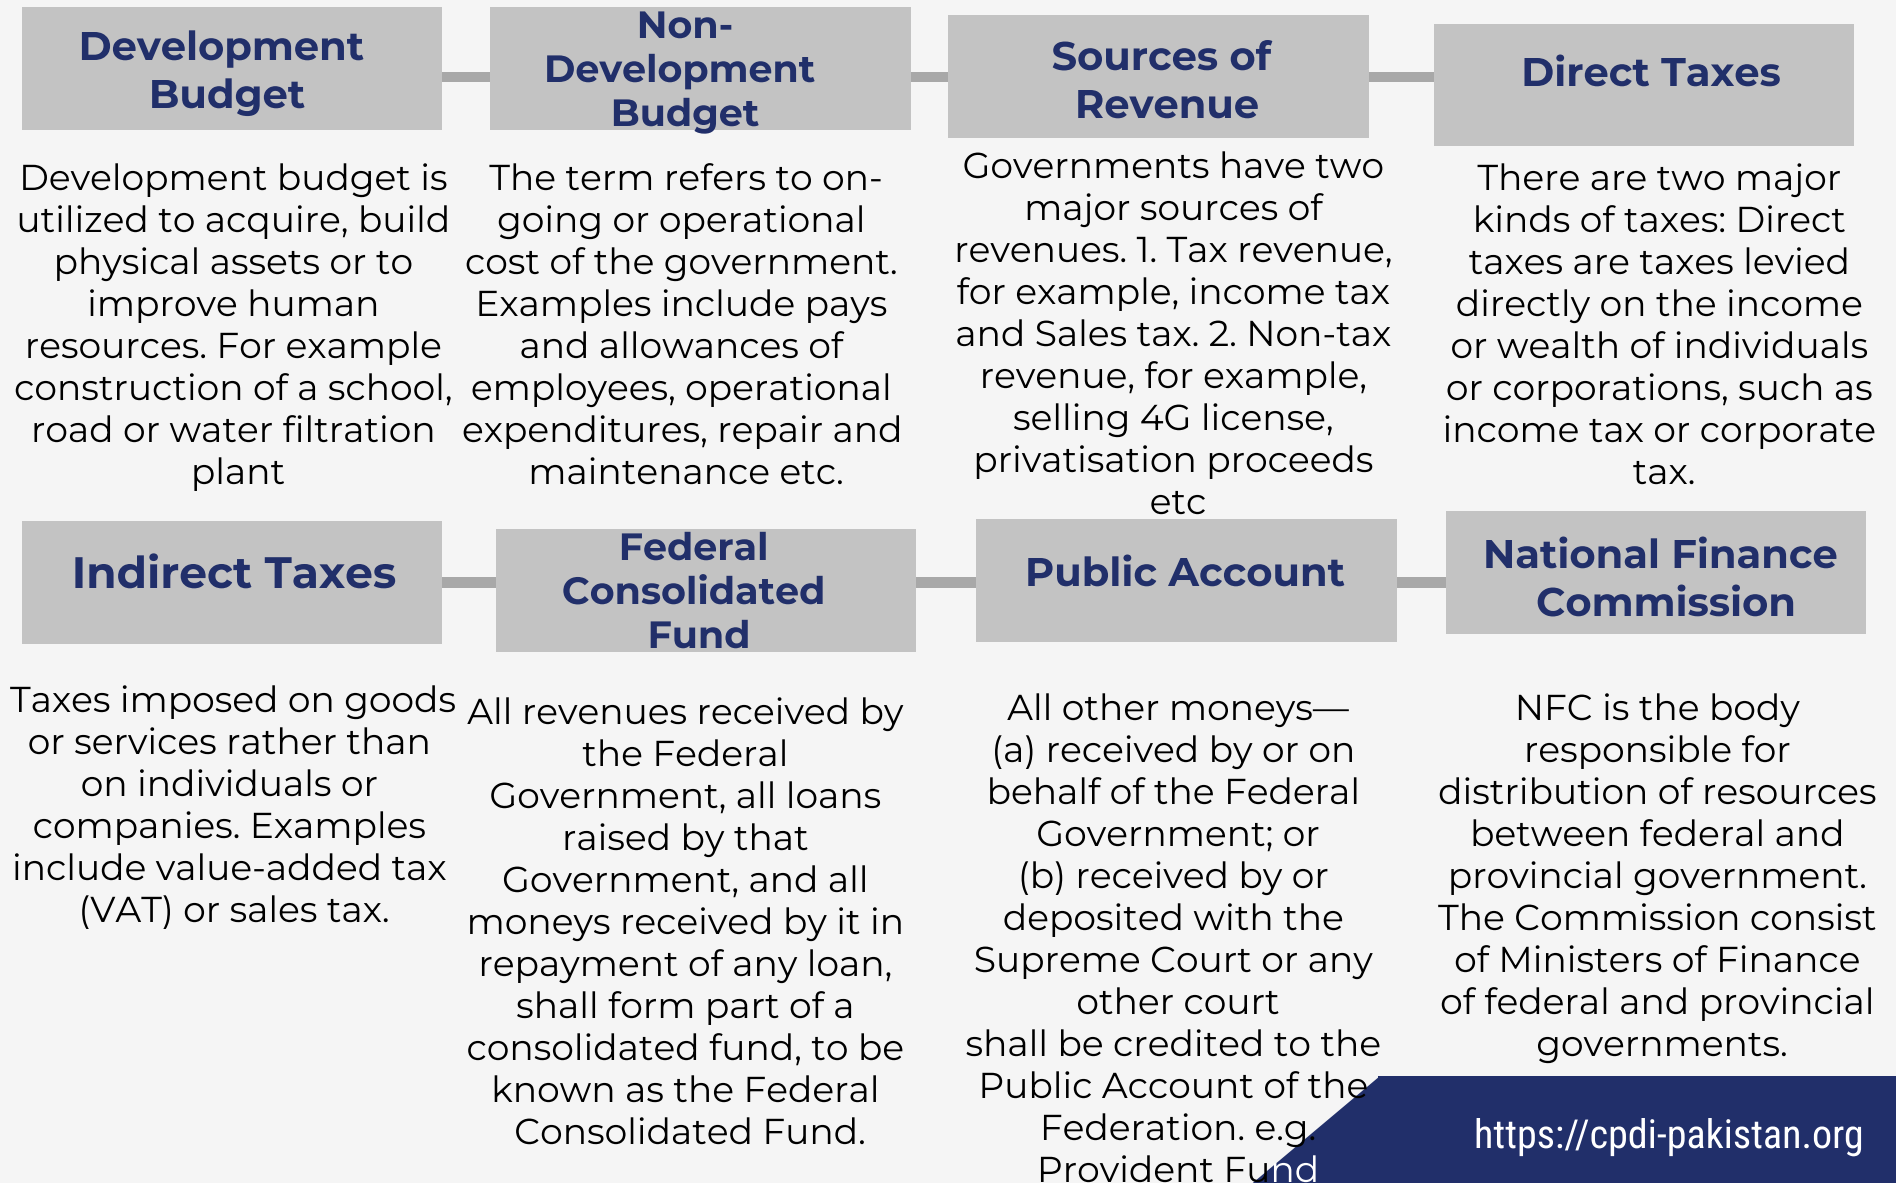

Citizens' Budget are designed to present key public finance information to a general audience. They are typically written in accessible language and incorporate visual elements to help non-specialist readers understand the information.

Issuance of citizens' budget is a rare practice in Pakistan; only very recently have the governments produced such documents. No district governments has ever issued any citizens' budget at all.

Citizens Budget at CPDI

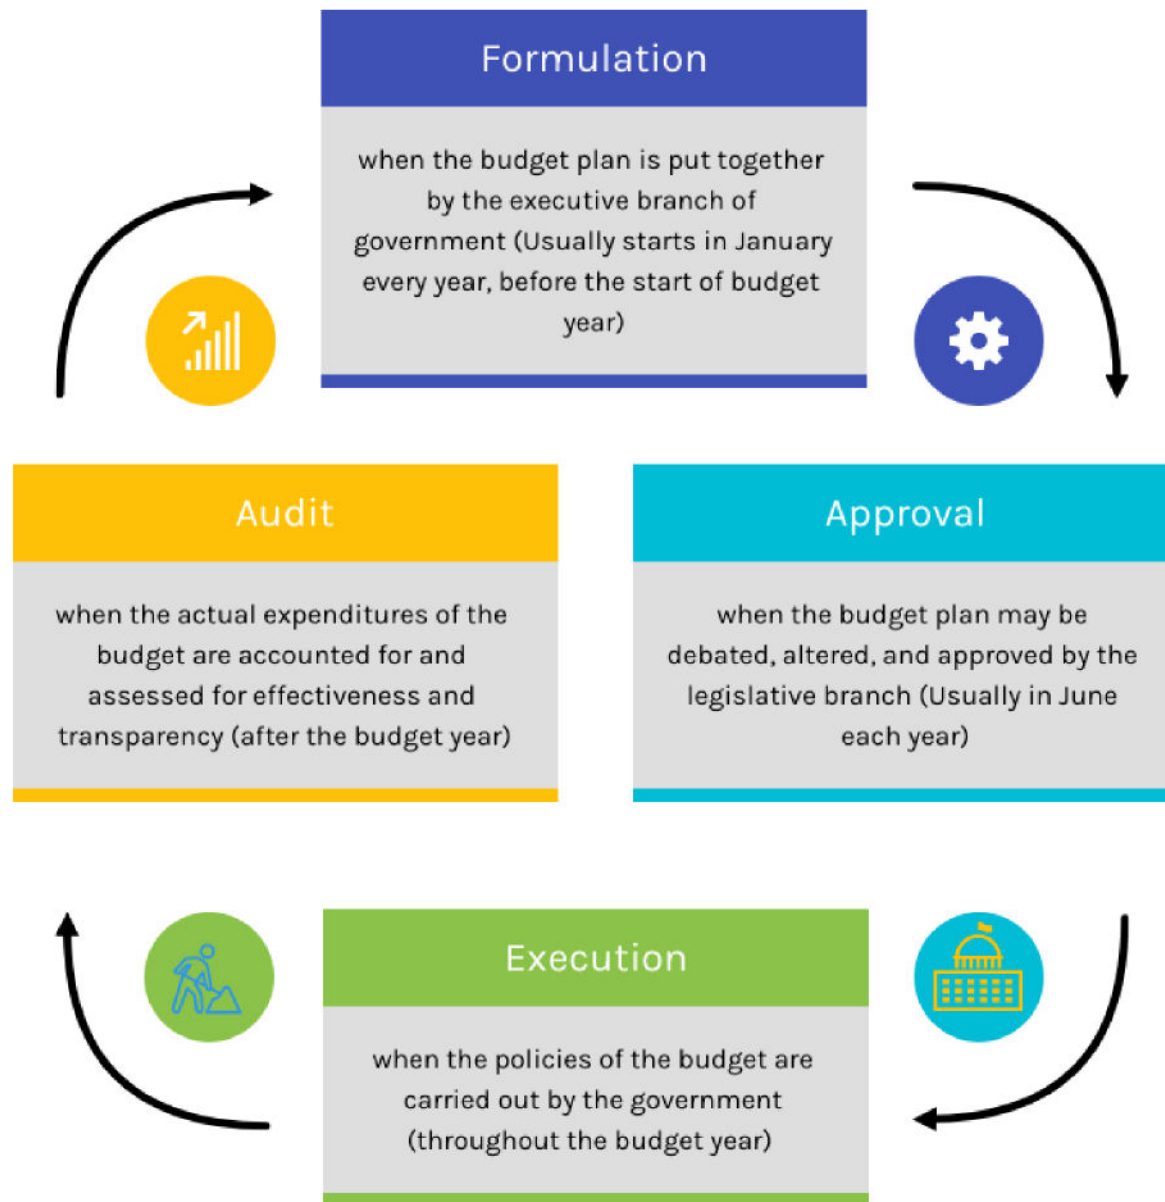

Citizen's Budget is an exhaustive and elaborate exercise. We at CPDI have taken a unique step in preparing Pakistan's first district centric Citizens' Budget. CPDI Budget Team extracted data from provincial budget books for the year 2023-24. The projects relating to Badin district have been presented this in Citizens' Budget 2023-24.

Centre for Peace and Development Initiatives (CPDI) is an independent, non-partisan and a not-for-profit civil society organization working on issues of peace and development in Pakistan. It is registered under section 42 of the Companies Ordinance, 1984 (XLVII of 1984) later substituted by Companies Act 2017. It was established in September 2003 by a group of concerned citizens who realized that there was a need to approach the issues of peace and development in an integrated manner. CPDI is a first initiative of its kind in Pakistan. It seeks to inform and influence public policies and civil society initiatives through research-based advocacy and capacity building in order to promote citizenship, build peace and achieve inclusive and sustainable development. Areas of special sectoral focus include promotion of peace and tolerance, rule of law, transparency and access to information, budget watch, media watch, local government, climate change, election watch and legislative watch and development.
